

Please ensure that K-LOVE stays on the air in my area. K-LOVE is an important part of the community as it informs us of upcoming events in our area. If this station were forced off the air, this would remove our vehicle for communications of local events. I have many friends that also listen to this station and heavily rely on its programming to keep us informed. This station is vital to our community and we absolutely need it. Thank you for your attention to this matter.
